Our Story...

Craft Enterprises showcase unique, handmade and desirable pieces with a contemporary influence.

The furniture and decor accessories are elusive, indefinable, covetable and original.

Craft Enterprises range of furniture and unique pieces of objet d'art for the home are sourced from all over the world, with a strong emphasis on Africa.

The most compelling facet of these products are that they are hand made, authentic and have been produced from a sustainable resource moulding tribal and contemporary elements together beautifully.

Most of these pieces may be individually selected to suit the decor and space.

Many of the products are from communities that have hewn their craft over many generations and take pride in their intricate workmanship.

By adding some of these selected and sought after pieces to an interior space one is assured of an individual environment with a focal point which will be time enduring.
